We Are Viñedo Singular. Valdelacierva is more than just a winery. For some years now, the value, authenticity and personality of each of its vineyards has shone through in the DNA of its wines. Briones, Baños de Ebro, San Vicente de la Sonsierra and Tudelilla are the key villages where its vineyard plots are sited (in fact, Valdelacierva is one of the Riojan wineries with the highest number of Viñedo Singular, or Single Vineyard plots registered). The winery's passion for careful, methodical winemaking and its terroir mean that excellence is a continual and intrinsic part of winemaking at Valdelacierva, rather than just a result to be measured at the end of the process

Production:

The grapes are selected taking into account the plot they come from and their maturation degree, being hand picked. Pre fermentative maceration takes 3 days at 12 °C to help extracting the aromas. Fermentation is done at a controlled temperature of 22 °C - 24 °C.
